PROFESSIONAL SUMMARY

Results-driven Cloud & Infrastructure Engineer with 5+ years of experience managing enterprise-grade systems for global clients including JPMC, Hilton, Marriott, and Rosewood. Proven track record of delivering 99%+ uptime SLAs, automating infrastructure provisioning, and supporting cloud-managed platforms on AWS. Skilled in DevOps toolchains (Ansible, Docker, Kubernetes, Terraform) and remote L1/L2 support. Seeking a role where I can drive reliability, automation, and operational excellence.

PROFESSIONAL EXPERIENCE

Aftersales Technical Engineer | **VDA.Telkonet** | Dubai (Remote) *Aug 2024 – Present*

- Deployed and managed cloud-based IPTV & GRMS systems for 5-star hospitality clients including Hilton, Marriott, Jumeirah, Rosewood, and MGM — ensuring 99%+ guest-facing uptime.
- Delivered remote L1/L2 support for GRMS platforms (Rhapsody, Micromaster, Etheos), reducing average resolution time and improving client satisfaction scores.
- Monitored IPTV infrastructure via AWS Cloud (Nonius, PowerTV OnAir); proactively identified and resolved incidents before guest impact.
- Managed Annual Maintenance Contracts (AMC) and executed preventive maintenance schedules, maintaining system health and contractual compliance.

Infrastructure Engineer | **Mphasis Ltd.** | Pune, India *Feb 2022 – Jul 2024*
Project: FirstRepublic Bank (acquired by JPMC)

- Maintained 99% uptime for mission-critical banking infrastructure, consistently exceeding client SLA targets across production and non-production environments.
- Automated server deployments using Ansible Tower, reducing provisioning time and eliminating manual configuration errors across Windows & Linux environments.
- Implemented proactive monitoring with SolarWinds and New Relic, enabling early detection of performance degradation and reducing incident response time.
- Maintained SSL certificate lifecycle using IIS, ensuring zero security lapses on Windows servers.
- Monitored shared network paths and file servers with Varonis, safeguarding data integrity and access compliance.
- Operated across a broad toolset: AWS, VMware, Ansible, ServiceNow, Cohesity, Control-M, Infoblox, Windows AD, PUM.

Technical Support Engineer | **ActioHx** | Pune, India *Oct 2020 – Feb 2022*
Project: DELL Tech Direct (DTD)

- Provided 24/7 SLA-bound technical support for DELL enterprise hardware/software, achieving high first-contact resolution rates.
- Diagnosed and resolved complex hardware and software issues, documenting resolution techniques to build team knowledge base.
- Utilized SFDC, DELTA, and DTD platforms for case management and customer communication.

DevOps Intern | **Bharattech** | Kanpur, India

2020

- Built and automated a CI/CD pipeline using Git and Jenkins for an AI-driven project, streamlining software delivery and boosting deployment efficiency.
- Monitored VPS and AWS server health using Netdata, optimizing resource utilization and maintaining uptime.
- Gained hands-on experience with Docker, VPS, and cloud-based environments in a fast-paced collaborative team.
